

PROJECT DESIGN PHASE 1

SOLUTION ARCHITECTUR

DATE	31 OCTOBER 2023
TEAM ID	6D4BEFABCF29086980146B64642C0BD8
PROJECT NAME	To create a Google my business profile

SOLUTION ARCHITECTURE

Determine the specific features, functionality, and data you need in your solution. This could include user profiles, data storage, authentication, moreSelect.the appropriate technologies for your solution. Consider factors like the programming language, database, web server, and frameworks. Create a data model that defines how your business data will be structured and stored. This includes databases, tables, and relationships.
